

POWER WASHERS

CP SERIES: PORTABLE COLD WATER, GAS POWERED

HYDRO TEK.US

BUILT FOR SEVERE DUTY

POWER WASHER

COLD WATER, GAS POWERED

CP
SERIES

Long Life Engines:

Twin cylinder, pressure lubrication, and oil filtration along with reserve horsepower delivers 50% longer life than single cylinder powered washers. Electric start/low oil shutdown engine starts with the turn of a key and shuts off automatically if oil pressure drops.

Smooth Running:

V-Twin engine is quiet and produces less vibration. Triplex pump, hose, and unloader valve system eliminate water pulsation.

All Stainless Frame:

Hydro Tek's rust proof Pro-Tect-It frame surrounds critical components. Integrated control panel protects unloader from abuse and vibration.

Flexible Portability:

- Lifting eye enables hoisting overhead
- Four handles enhance maneuverability
- Integrated skid base for component mounting
- Installed 4-wheel kit, 10" tires

Safe Refueling - 4 gallon capacity:

Fuel tank is located away from engine to reduce risk from gas spills. Extra capacity tank extends running time up to three times longer.

Equipment Protection:

Integrated safety controls to prevent damage include:

- Over temp pump relief valve
- Pressure unloader valve and safety pressure relief
- Pro-TECT-IT cage frame

Full Rated Output:

Cleans 15% faster than comparable washers by achieving full rated flow.

More standard features:

Adjustable output with hand throttle adjustment for various applications, Quick couplers on nozzles and hose, Heavy duty 50' hose, trigger gun and wand

Total Relief Unloader:

Flow sensitive unloader allows pressure to build up gradually as trigger gun is activated reducing gun recoil. When gun is released the entire system is relieved of trapped pressure, for easy starting and less wear.

CAT Pump/ Gear Belt Drive:

High torque, "no slip" gear belt, low RPM drive- cooler, quieter, allows continuous performance. These industrial triplex, ceramic plunger pumps outperform the competition in longevity.

Specifications

Model	PSI	GPM	HP	Engine
CP32005V	3200	4.6	14	Vanguard Gas
CP35005V	3500	4.6	16	Vanguard Gas

Specifications may vary, consult factory for custom models

Optional Accessories:

Heat Link hot water box, Hour meter kit, Hose reel, Downstream soap injection, Turbo nozzle, Hydro Twister Concrete cleaner, Wet sandblast assembly, Hose and Wand extension
