

PRESSURE STEAMERS

HN SERIES: NATURAL GAS OR L.P. FIRED, ELECTRIC

HN Pro Line Series
shown w/ hose reel option

HYDRO TEK.US

IN A WASH BAY, THE OTHERS WON'T MEASURE UP

PRESSURE STEAMER

HOT/COLD/STEAM - NATURAL GAS, ELECTRIC POWERED

HN
SERIES

Common Features

- **Stainless Steel Housing:**
Coil enclosure and motor cover are constructed of rust proof stainless steel powder coated welded chassis provides durability.
- **Unmatched Access and Serviceability:**
Pivoting cover opens to provide exceptional pump and component access. Skid legs provide access from below while safely raising the pilot light 18" off the ground for extra safety.
- **Clean and Efficient Heating System:**
24v automatic electronic ignition on low emission natural gas burner. High efficiency schedule 80 coil with ceramic insulation delivers years of uninterrupted service.
- **Total Relief Unloader:**
Flow sensitive unloader allows pressure to build up gradually as trigger gun is activated reducing gun recoil. When gun is released the entire system and discharge piping is relieved of trapped pressure.
- **NEMA4 Water Tight Electrical Box:**
ETL certified to UL1776 Class 2 for use in wash-down area, exceeds industry standards. Special Hydro Tek control box features easy to use controls and provides instant access to electronics. Standard diagnostic indicators ensure optimal system performance.
- **More Standard Features:**
 - Detergent flow metering at full pressure ■
 - Quick release nozzles
 - Heavy duty industrial motor with standard thermal overload protection.
 - Adjustable temperature up to 250°F with steam setting ■
 - Burst disc technology for operator safety.
 - Rustproof float tank to regulate incoming water ensuring consistent system performance. ■
 - Heavy duty hose 50' 5000 PSI/ 250° rated and stainless adjustable pressure wand

HN Ultimate Series Features

- **All Stainless Frame:**
Lasts a lifetime even in wet areas - Rust Proof
- **Remote Control with Hose, Nozzle, Wand Rack:**
Safe, 24 volt remote with full pressure soap output and 100' cord gives the operator control of all functions both at the machine and the remote wash site. Additional wash station remotes can be added.
- **Automatic Shutdown:**
Adjustable automatic shutdown prolongs pump life and provides worry-free operation.
- **Belt Driven pump:**
Low RPM drive – cooler, quieter, continuous duty performance. These industrial triplex pumps feature concentrically bored and polished, graphite impregnated ceramic plungers with advanced seal design.
- **Ready to Work when you are:**
No need to fill fuel tanks or hunt down a water supply when machine is directly plumbed into natural gas and water lines. The pressure washer can be housed indoors, away from the elements, while locating the wash station remote outdoors.

HN Pro Line® Series Features

- **Bypass Cool System:**
Pump cooling system prevents pump from overheating in bypass for worry free operation. (Remote wash station are optional for Pro Line Series)
- **Durable Frame Construction:**
Standard with black powder coated frame and legs

** Includes two guns, wands, hoses
Specifications may vary, consult factory for custom models

Optional Accessories:

Conversion to Liquid Propane, wheel kit for LP version, Stainless steel hose reel, additional wash station remotes, Draft diverter, Downstream soap kit, Hour meter for Pro Line, Hydro Twister- surface cleaner, Hose and wand extensions.
